Budwig Therapies

Therapies & Remedies That Would Have the Approval of Dr. Budwig

FOUR IN ONE Therapy

Ancient Japanese and oriental medicine consider cancer as a 'cold' disease and applying just the right amount of heat for specific periods of time can produce outstanding results. From this concept is born a therapy in the early part of the year 2000 that combines (1) selected Infrared heat waves, (2) acupuncture (but without the needles), (3) energy balancing frequencies and (4) Rife vibrational frequencies all in one, which is why it is called "Four in One" therapy

Sono-therapy

Using the Wave Pro Plus applicator that sends a "pulsating focused sound wave" over the affected area helps treat pain, frozen muscles, digestion issues, enlarged prostate, and tumor reduction, etc. Nothing is inserted into the body. Waves are high-pressure, low- frequency generated by the device outside the body and are applied to the affected area. You simply hear a tic tic tic sound as the electromagnetic force activates the body's natural healing mechanism

Vega Bio Resonance testing and Zyto scans

Full body scan that will verify all aspects of your health such as the major organs (i.e. heart, lungs, liver, brain gallbladder, etc.), the backbone, teeth, tendons, hormones, muscles, parasites, viruses, harmful bacteria, Candida, food intolerances, allergies, infections as well as your emotional state of health which could be a major contributing cause to illnesses.

Immunol therapy

Immunol therapy using transfer factors which are the secret of the immune system. Once you remove the protective protein membrane from the cancer cells using these fruit extract formulas, the Transfer Factor immune supplements will be able to effectively restore the immune system to its full potential to deal with cancer and unwanted pathogen

Par Bio Magnetism therapy

Disables parasites and helps restore pH balance.

Matrix Regeneration Therapy

Accesses all the inner organs via the reflex zones on the back. The Med Matrix makes use of the resonance phenomena to activate feedback loops (biofeedback systems) and thus stimulate the body's self-healing power and detoxification

PEMF – Pulsed Electric Magnetic Therapy

The Papimi machine helps with pain and restoration of the healthy levels of magnetic energy our body needs to function properly.

Biological Dentistry

Replacement of amalgam fillings and biological dental care. Very important to work with a holistic clinic that can offer this service.

Colonics

Gallons of pure water removes years of buildup fecal matter from the colon.

Emotional Healing Therapies

Emotional Healing Therapies – such as EFT (Emotional Freedom Technique)

Recall Therapy

A trained expert will help neutralize past emotional trauma.

Kinesiology

A trained therapist who is very intuitive in discovering the underlying causes of many diseases and the emotional connection.

Tumor Freezing (cryosurgery)

Tumor freezing is a natural alternative solution in treating cancerous and noncancerous tumor growths. Liquid nitrogen is applied on the cancerous and/or noncancerous tumor or injected internally and then the tumor dies a natural death and is expelled through the body's natural elimination process. Freezing a tumor may prevent side effects that typically occur in traditional surgical tumor removal such as faster healing time and no incision scars.

Full body and localized hyperthermia

Full body and localized hyperthermia – heat weakens cancer cells and helps reduce tumors

Surgery

Patients who prefer to have a tumor surgically removed at the same time they follow the Budwig protocol. Dr. Budwig recommended surgery be done when there is no choice. Perhaps the tumor is in an area of the body that is life threatening and so it needs to be removed. Otherwise she explained that the body "made" the tumor and given the "right tools" will automatically get rid of the tumor.

Infrared sauna

Infrared sauna – Far Infrared Sauna to help weaken the cancer and remove heavy metals from the body.

Ultrasound

Ultrasound – helpful in determining tumor locations and dimensions

Castor Oil Packs

Castor Oil Packs – placed over liver for liver cancer patients

Bio Mat

Bio Mat – increases cellular energy

Jade thermal Spinal Realignment therapy

All our organs are represented in the spinal column, thus if there is a disk that is even slightly out of place, corresponding organs will be deprived of the necessary energy and signals.

Homeopathic therapy

Homeopathic therapy

Massage therapy

Massage therapy

Blood test

Blood test – request a full panel of blood work with CA markers

Allergy and Food Intolerance Testing

Using bio-resonance equipment that can literally examine hundreds of foods to determine any intolerance or allergy that you might have

Bio catalytic therapy

Increased oxygen levels naturally with pine needle extract inhalation.

Enemas

Flaxseed oil, Coffee and green tea enemas are part of the Budwig protocol

Water structuring

Most people with cancer suffer from a constant in a pH acidic state, which enables the cancer to thrive.

Fitness programs

Fitness programs – a 20-minute walk and gentle daily exercise and sunshine.

Nutrition therapy

The Budwig center food plan is a plant-based diet

Aerosol homeopathic

Aerosol homeopathic treatments to regenerate mucous membranes and respiratory issues.

Viral therapies

Viral therapies using essential oils, diatomaceous food grade earth, herbal and homeopathic formulas.

Acupuncture

Acupuncture

Pain Therapy

Using protein extract injections as well as selected herbal and plant extracts, we can help patients naturally reduce even severe pain.

Reflexology

Reflexology

Remedies that are Budwig Approved

- **Enzyme and fruit extract formulas** – Important to disable the protective membrane around cancer cells.
- **IV's of homeopathic formulas**
- **Herbal formulas and teas**
- **Phyto-therapy** – Dr. Budwig approved the use of plants in her remedies. We have selected plant extracts in liquid, pill and powder form to nourish and detox.
- **Homeopathy** is an effective natural alterative in treating a host of conditions
- **Essential oils**, such as frankincense, myrrh, Magnolia and Artemisia
- **Mushroom** extracts to boost immune system and regenerate nerve sensibility and offset the effects of chemotherapy and radiation
